making a digital image of a desired subject;

forming two or more visual images of the desired subject digital image of different sizes of the same image on a single medium to be fixed to a page and distinct from the page which can be used in a scrapbook;

forming a visual image of printed instructions for making the scrapbook on the single medium;

cutting out the series of images from the medium;

fixing the cut out images on the page forming a composite image on the page which can be used in the scrapbook; and

annotating the page with other information or pictures and inserting such page into the scrapbook.

9. (cancelled)

10. (previously presented) A method of arranging a series of images taken from a single image to be fixed to a page which is usable in a scrapbook, comprising:

using a digital image of the single image to produce a series of digital images of the

same single image where each of the digital images of the same single image have different characteristics;

forming at least one visual image of the series of different characteristics of images on a single medium distinct from the page;

forming a visual image of printed instructions for making the scrapbook on the single photographic print medium;

cutting out the at least one visual image from the medium; and

fixing the cut out of at least one visual image on the page forming a composite image on the page which can be used in the scrapbook.

11. (original) The method of claim 10 wherein the at least one digital image includes a plurality of images of the single image having different characteristics and which are arranged as a single visual image to be cut out from the medium.

12. (original) The method of claim 11 wherein the visual images are photographic images, thermal images, or inkjet images.

13. (previously presented) The method of claim 12 wherein the different characteristics include size, color content, mirrored images or combinations thereof.

14. (original) The method of claim 10 wherein further including the step of providing other visual images on the scrapbook page either before or after fixing the visual image to the scrapbook page.

15. (previously presented) A method of arranging a series of images taken from a single image to be fixed to a page which is usable in a scrapbook, comprising:

providing a digital image of a single image;

following instructions for producing a series of digital images of a single same image where each of the digital images of the single same image have different characteristics;

forming at least one visual image of the series of different characteristics of images on a single medium distinct from the page;

forming a visual image of printed instructions for making the scrapbook on the single medium;

cutting out the at least one visual image from the medium; and

fixing the cut out at least one visual image on the page forming a composite image on the page which can be used in the scrapbook.

16. (cancelled)

17. (currently amended) The ~~method instruction sheet~~ of claim 15 wherein the instructions include information includes a visual arrangement of images and text.

18. (previously presented) A method of providing images and information to a user to permit the arrangement of a series of at least two pictures of different characteristics of the same image and fixing them to a page which is usable in a scrapbook, comprising:

using a digital image to produce a series of digital images of the same image where each of the digital images of the same image have different characteristics;

forming visual images of the series of different characteristics of images and instructions on a single medium distinct from the page;

forming a visual image of printed instructions for making the scrapbook on the single medium; and

printing the visual information and the instructions to facilitate a user cutting out the series of different characteristics of visual images from the medium and fixing them to a scrapbook page forming a composite image on the page.

19. (cancelled)

20. (previously presented) A method of permitting a user to arrange a series of at least two visual images of different characteristics formed from the same image and fixing them to a page which is usable in a scrapbook, comprising:

the user sending a digital image over a communication channel to a service provider with instructions to the service provider, such service provider using the digital image produces a series of digital images of the same image where each of the digital images of the same image have different characteristics in accordance with the instructions and sends such digital images series to the user;

the user using the series of digital images forms visual images of the series of different characteristics of images on a single medium distinct from the page;

forming a visual image of printed instructions for making the scrapbook on the single medium;

the user cutting out the series of different characteristics of visual images from the medium; and

the user fixing the cut out different visual images on the page forming a composite image on the page which can be used in a scrapbook.

21. (original) The method of claim 20 further including making payment via the channel to the service provider for providing the series of digital images.

22. (original) The method of claim 20 wherein the channel is a local channel or the Internet.

23. (previously presented) A method of making at least two images which can be used in a scrapbook page, comprises:

providing at least one portion of at least one digital image provided by a user;

modifying the at least one digital image to provide a modified digital image of the same image;

providing instructions in a digital format containing information for assembling said at least one user supplied digital image; and

producing visual images from the at least one digital image, the modified digital image and the instructions on at least one single medium distinct from the page so that the visual images can be assembled in a scrapbook forming a composite image on the page.

24. (original) An image product produced by the method of claim 23.

25. (previously presented) A method of allowing a user to create a scrapbook page, comprising:

allowing the user to supply an image for the scrapbook;

allowing the user to specify reproduction of the image as a series of images with different characteristics associated with a scrapbook page style;

creating the series of images responsive to the style;

selecting a set of scrapbook page assembly instructions responsive to the style;

printing the images and the instructions on a medium distinct from the page; and

allowing the user to use the images to assemble the scrapbook page in accordance with instructions forming a composite image on the page.

26. (new) A method of allowing a user to create a scrapbook page, comprising:
allowing the user to supply an image for the scrapbook;
allowing the user to specify reproduction of the image as a series of images with different characteristics associated with a scrapbook page style;
creating the series of images responsive to the style;
automatically selecting a set of scrapbook page assembly instructions responsive to the style where the instructions correlate to the series of images;
printing the images and the instructions on a medium distinct from the page; and
allowing the user to use the images to assemble the scrapbook page in accordance with instructions forming a composite image on the page.

27. (new) A method of allowing a user to create a scrapbook page, comprising:
allowing the user to supply an image for the scrapbook;
allowing the user to specify reproduction of the image as a series of images with different characteristics associated with a scrapbook page style;
creating the series of images responsive to the style wherein each image of the series of images has a unique printable identifier associated with each image;
displaying a set of scrapbook page assembly instructions responsive to the style where the instructions reference the unique printable identifier associated with each image of the series of images;
printing the images, the unique printable identifier and the instructions on a medium distinct from the page; and
allowing the user to use the images to assemble the scrapbook page in accordance with the instructions referencing each image by the associated unique printable identifier and forming a composite image on the page.
